CAMPING AT THE RESORTS

While camping is not permitted on Mt Buller, our natural alpine partner Mt Stirling has a number of locations for enjoying the Australian alpine wilderness. Please read through the below tips to ensure you have a fantastic camping experience and leave the Alps in pristine condition for all to enjoy.

- Camp amongst the Snow gums rather than in the lower Alpine ash areas, as Alpine ash are prone to falling unpredictably
- Be prepared for all weather conditions. The weather can change suddenly and without warning in alpine areas
- Be sure to take a map and compass and learn to use them before you head off.
- Tell someone where you are going
- Use the toilets provided or ensure you dig deep holes 100 metres from waterways in order to protect the health of both animals and humans
- Make note of fire safety and evacuation locations. DO NOT light fires on fire ban days - if you are not sure, then don't light it!
- Be sure you don't disturb any precious flora or fauna on your hike
- Use the rubbish bins provided or carry your litter away with you
- Mt Stirling is closed on days declared Code Red Fire Danger in the North East region

WALKING AT MT BULLER

There's no better way to unlock the secrets of the High Country than on your own two feet. Mt Buller and the neighbouring Mt Stirling offer a variety of walking experiences for all ages and levels of fitness.

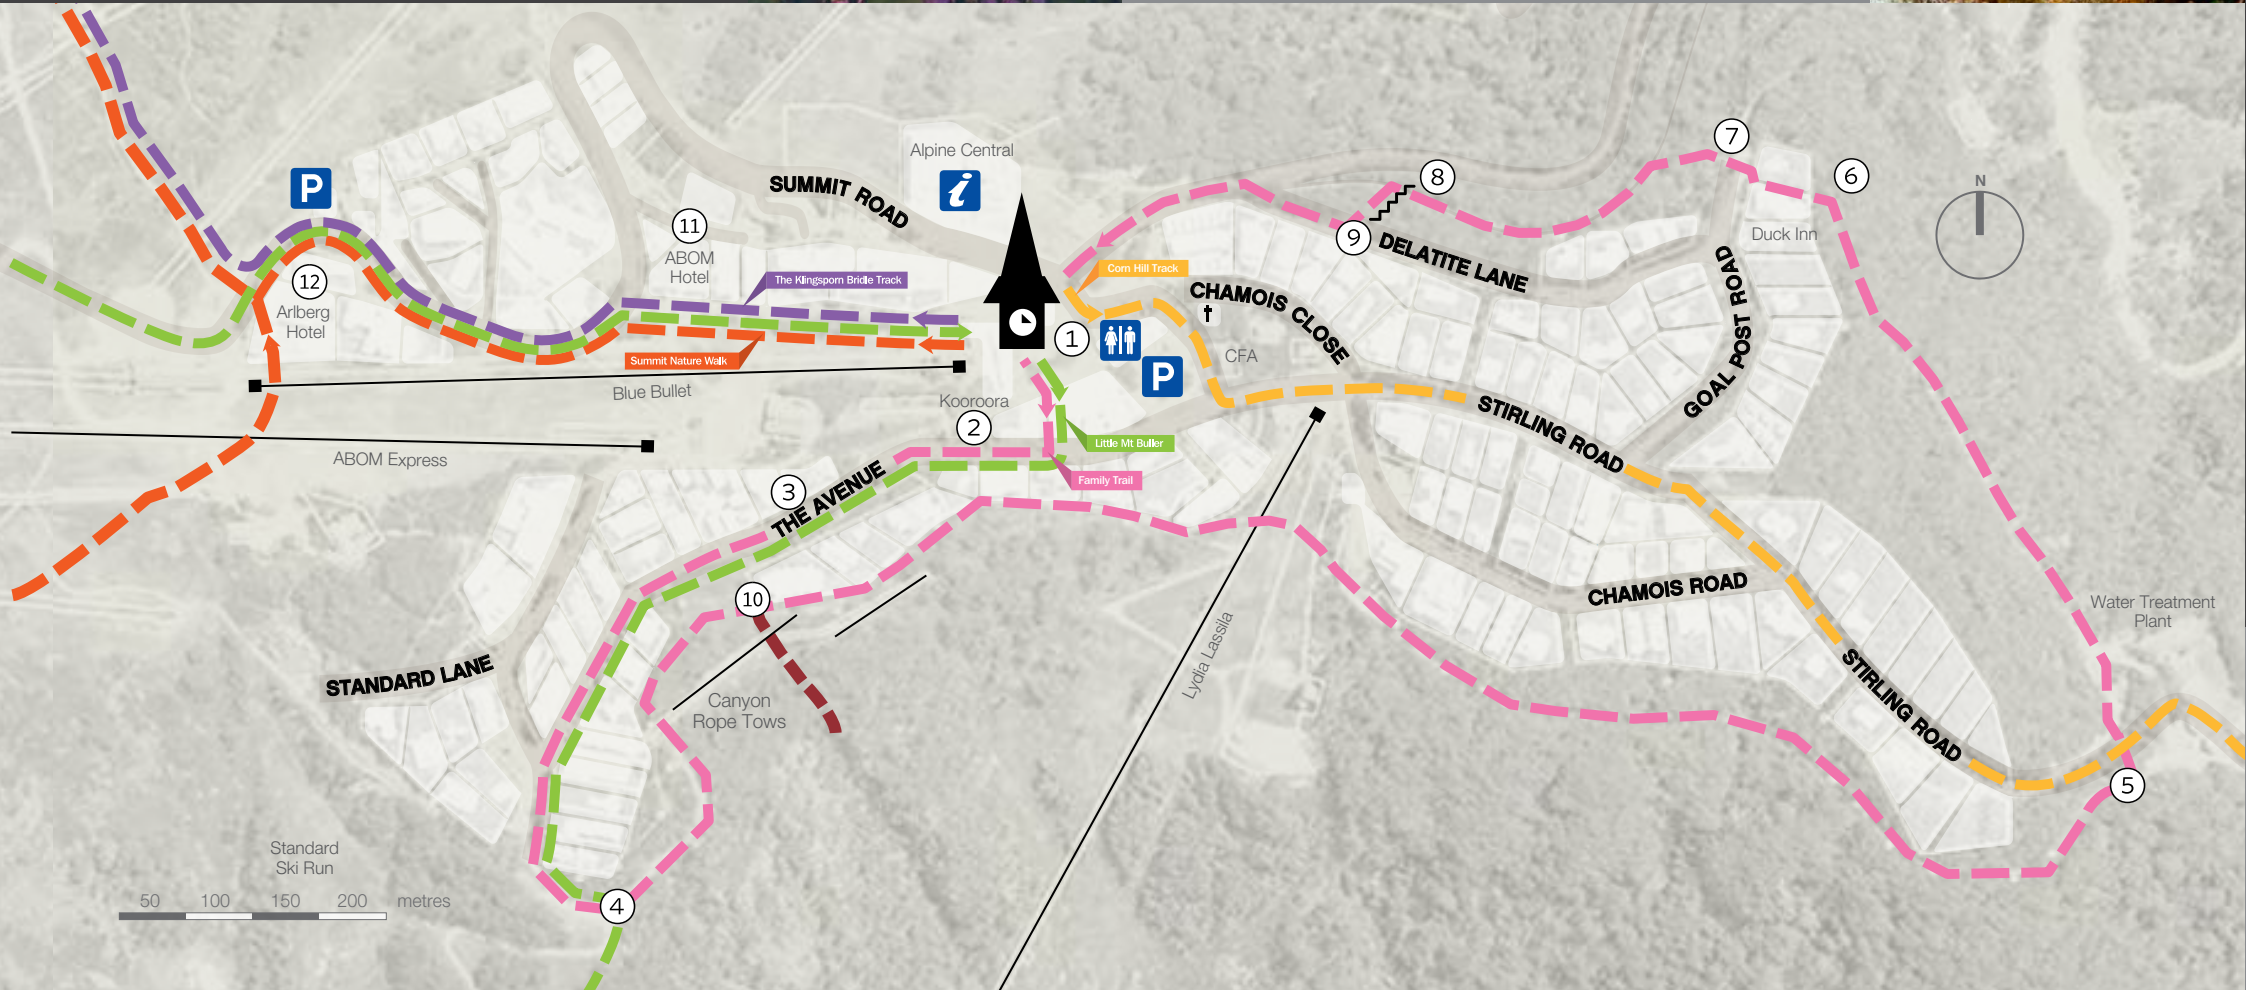

You'll also find a variety of services to support walkers across the resorts including parking, toilets and shelters. Fuel is available at Mirimbah Store at the base of the mountains.

Mt Stirling

At Telephone Box Junction you'll find the Mt Stirling Café is the ideal base for your walking adventures. Open weekends and public holidays from December - April the café has great food, excellent coffee, as well as local staff full of mountain knowledge. Camping is permitted at Mt Stirling, using tents or in the various refuge huts that provide a cosy shelter from the elements.

Mt Buller

On Mt Buller there are a range of cafés and restaurants that cater to hungry hikers. The supermarket is open 7 days, and offers a range of fresh food and essential supplies. There is a variety of accommodation styles from cosy lodges to self-contained apartments and hotels. Staying overnight means you can plan several day trips from the Village. Camping is not permitted on Mt Buller.

HIKERS' CODE

Minimal Impact Bushwalking

1. Prevent erosion and trail damage by staying on the trail wherever possible
2. Leave no trace, and carry out all garbage and litter
3. Fires are not permitted in the Mt Buller or Mt Stirling Alpine Resorts
4. Cutting tracks is illegal and marking tracks is unsightly
5. Respect native flora and fauna and do not disturb, handle or provoke wildlife
6. Never pick flowers or collect parts of trees or plants
7. Practise good hygiene and ensure you are at least 100 meters from waterbodies, and dig a hole 15cm deep when going to the toilet

Be Prepared

Plan ahead

Know your limits and be prepared. A well executed trip is a satisfaction to you and not a burden to others.

Pack appropriately

Mountain weather changes very rapidly and it can even snow in summer. Choose appropriate equipment for your excursion and ensure it is in good repair. Always wear sensible footwear for the terrain and carry waterproof clothing.

Let someone know before you go

Tell someone about your party, your route and when you plan to return.

Carry a fully charged mobile phone

Be aware that reception is limited in some parts of the resort(s).

ALPINE PROTECTION

To help protect our unique and beautiful alpine environment, within the resort several regulations exist including:

- The protection of alpine flora and fauna
- Prohibition of cats and dogs
- Prohibition of firearms

SHARED TRAILS

Mt Buller and Mt Stirling's trail network is shared by users including bike riders, trail runners and horse riders. Familiarise yourself with which trails are shared, and try to anticipate other trail users. Exercise caution on blind corners, road and track crossings, and on steep descents. Should you encounter horses or bike riders please move off the trail when safe to do so, and allow them to pass. Look out for these symbols on the map.
